Re: Charitable Gaming Taxes

Dear _____
(Representative or Senator name),

As your constituent I urge you to support any House and Senate Bills that will reduce the tax rates on Charitable Gaming.

I am a supporter of a non profit organization, which obtains funding through licensed Charitable Gaming. The organization serves over 1700 individuals across the state each year. The taxes paid by this organization have doubled each year of the stadium bill. For 2015, they paid over \$100,000 in taxes. The rates charged Charitable Gaming are outrageous. Those rates would never be charged to corporate entities, so why charge those local groups that use those funds raised to help provide meals to sick and elderly, swimming lessons and educational programs for youth, services for returning veterans and honor guards for fallen solders.

I urge you to support any legislation that would decrease the tax rates so that these organizations, can continue to provide the quality of life programs to their members and the general public. Thank you for your support.

Sincerely,

Name: _____

Address: _____
